

lähe

WOODEN GREENHOUSES AND PAVILIONS

SEASON 2026

Lähe House is an Estonian company specializing in the production of handcrafted thermowood or Accoya wood greenhouses and pavilions. Our passion for wood has driven us to create something truly extraordinary. By combining the centuries-old greenhouse concept with modern design and materials, we have created greenhouses and pavilions fit for the 21st century.

Using time-proven carpentry techniques alongside modern materials and technology, we can bring the greenhouse or pavilion you've always dreamed of to life in your garden. This is not just a functional structure – it is a work of art that enriches any outdoor space. Its elegant and stylish design, paired with the charm of a timeless wooden frame, makes it a true eye-catcher and the centerpiece of any garden.

Our wooden greenhouses and pavilions, featuring a unique and patented glass-on-frame design, are the result of exceptional craftsmanship and meticulous engineering. Each structure is expertly manufactured by our experienced specialists to meet the highest standards of quality, durability and aesthetics.

4 | FEATURES

Our greenhouses are designed to combine durability, functionality, and modern style. Every detail from sturdy frames to unique glazing is crafted to ensure optimal conditions all year round. Discover the key features that make our greenhouses reliable, efficient and easy to maintain.

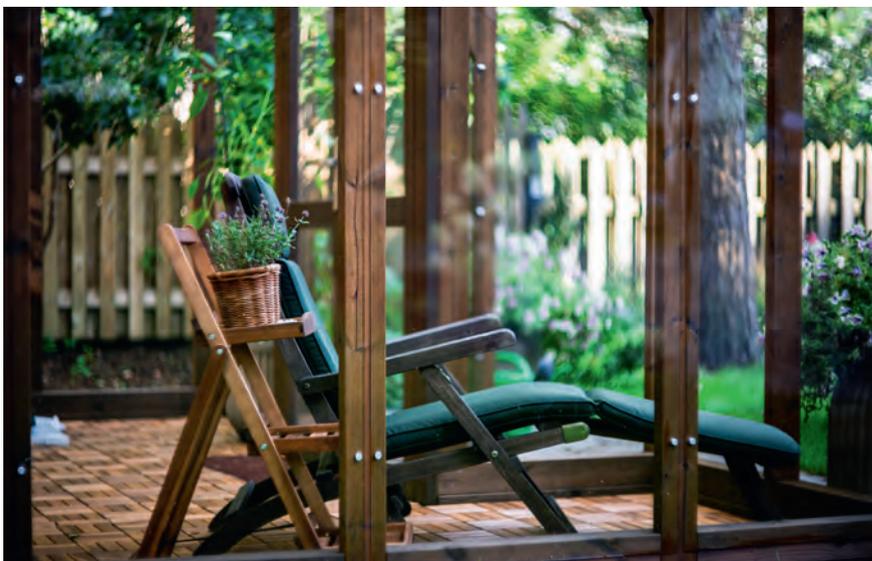

Unique design

At the core of every one of our handcrafted greenhouses is an innovative and patented glass-on-frame construction — a design found nowhere else.

Premium wood

Our greenhouses frames are crafted from strong and resilient Thermowood® or Accoya® wood, ensuring outstanding durability, stability and a natural look.

Strong glass

Featuring 4 mm tempered glass glazing, our greenhouses ensure enhanced safety, resilience and a bright, open atmosphere.

Stainless steel

With majority of the screws, brackets and hinges made from premium stainless steel, our greenhouses deliver exceptional durability and lasting weather resistance.

Reliable roof windows

To ensure excellent ventilation and long-lasting performance, our greenhouses are fitted with Bayliss triple-spring roof window openers, known for their strength, reliability and smooth operation.

Adjustable 3D hinges

For maximum precision and an elegant finish, our greenhouses use fully adjustable and discreetly hidden 3D hinges, ensuring smooth operation and perfect door alignment.

Stainless doorstops

We use custom-made stainless steel doorstops to enhance safety and ensure secure and reliable door positioning.

6 | SMALL GREENHOUSES

Greenhouse ML 1

4,19 m²

Width	1950 mm
Length	2150 mm
Eaves height	1560 mm
Ridge height	2350 mm
Door width	650 mm
Door height	1800 mm
Roof windows	1 pc
Roof pitch	36°

Greenhouse ML 2

5,55 m²

Width	1950 mm
Length	2850 mm
